EDUCATION

Bachelor of Computer Application (BCA) August 2024 – June 2028

Banarsidas Chandiwalla Institute of Information Technology (BCIIT), GGSIPU, Delhi

CGPA: 8.5 / 10 (2nd Year)

TECHNICAL SKILLS

Languages: Python, C, JavaScript, PHP, HTML, CSS

Backend & Databases: MySQL, PostgreSQL, REST APIs (Fetch API)

Tools & Platforms: Git, GitHub, VS Code, Power BI, Microsoft Excel

Coursework: Data Structures, Operating Systems, OOPS, Database Management Systems

PROJECTS

Movie Search Web App | JavaScript · HTML · CSS · TMDB API [GitHub](#)

- Built a responsive movie search app integrating the TMDB REST API via Fetch API, returning real-time data for 500,000+ film titles.
- Dynamically rendered posters, ratings, release dates, and plot summaries, reducing user lookup time compared to manual search.
- Implemented colour-coded rating indicators (green/amber/red) to help users assess film quality at a glance, improving UX.

Expense Tracker | JavaScript · HTML · CSS [GitHub](#)

- Developed a full-featured expense management app supporting daily categorisation and budget tracking across sessions.
- Integrated the Local Storage API for persistent data storage, ensuring expense records survive browser restarts with zero data loss.
- Designed a modern UI featuring Dark Mode / Light Mode toggle, reducing eye strain for users in low-light environments.

ACHIEVEMENTS

3rd Prize — Internal Smart India Hackathon (SIH) September 2025

Built an AI-powered Farmer Advisory System in a team to address the challenges faced by farmers in rural India — providing crop recommendations, weather alerts, and market price insights. Shortlisted among top projects in the college round and awarded third place.
